

## HARDING NEAR DEATH WHEN CAR LEAVES THE RAILS

Private Car Leaves Rails and is Dragged Across Narrow Chasm—Is Abandoned but Does Not Interfere With Trip—Senator Compares Wrecked Car With Car of State

ON BOARD SENATOR HARDING'S SPECIAL TRAIN, Sept. 29.—Senator Harding's special train escaped a serious wreck by a hair's breadth today as it was carrying the Republican nominee across West Virginia on the last leg of his last campaign trip.

His private car, Ideal, left the rails near Nillwood, a small mountain village, and with its trucks banging themselves to pieces over the railway ties, was dragged across a high and narrow trestle at the rate of thirty miles an hour. The train came to a stop beyond the chasm just as the rear wheels of the Ideal veered off the ties entirely and buried themselves in the gravel.

Caused by Defective Castings. The other cars of the train did not leave the rails and no one was injured. A defective casting in the front truck, which joined to pieces as the car crossed a switch, was blamed by train officials for the accident. In its perilous career the heavy car splintered ties and snapped off rail bolts for more than three hundred yards and two of the ties in the trestle crushed entirely.

The special minus the abandoned "Ideal" tonight turned northward for Marion, the senator completing his three-day trip with two evening addresses in Ohio. During the day he had spoken in a half dozen West Virginia cities and had addressed an afternoon meeting at Ashland, Ky.

Americanism, representative government and governmental economy were features of the nominee's speeches, and he also touched on most of the other issues of the campaign. At Ashland he condemned pork barrel river and harbor legislation and asked for a more efficient development of the nation's inland waterways. In speaking to a crowd at the railway station at Mason City, V., he compared his abandoned private car to the American car of state.

Car of State Gets Off Track. "The great car of state," he said, "going forward to the fulfillment of national engagements, somehow got off the track last year over in Paris, and it left things in bad order and I think maybe in crossing the trestle of internationalism if it had not been for the guard rail of constitutionalism in the senate, to prevent us from completely leaving the track, we might have had a serious wreck of the United States. So I am telling you that instead of trying to put a broken-up car back on the track, let us cut it loose and go on and keep our engagements with all the world."

The other West Virginia cities in which the senator spoke during the day were Sistersville, Ravenswood, Point Pleasant and Huntington, and his two stops in Ohio were at Ironton and Portsmouth. In nearly every address he stressed his determination to "end one-man government" and to preserve national integrity from any encroachment by a council of foreign powers.

Miners Vote to Return to Work. BLOOMINGTON, Ill., Sept. 29.—Miners in the employ of the McLean County Coal company, who have been on a "vacation" since Sept. 10, voted today to go back to work pending a settlement of their wage differences with the company. It is thought the mine will re-open Friday.

The men engaged in actual digging of coal claimed that recent wage advances given to the common laborers connected with the mine had made the miners' wages less than that of the laborers. All mines in the northern fields where thin veins prevail were in a similar condition. Operators of the northern fields will meet committees of miners in Chicago Thursday to adjust the dispute.

ADD ADDITIONAL CLERICAL FORCE TO HANDLE IMMIGRANTS

One Hundred and Thirty Three Employees Added to Force

LACK OF FUNDS HANDICAPS WORK

WASHINGTON, Sept. 29.—To meet the rush of work of Ellis Island caused by the influx of immigrants, Assistant Secretary Post of the labor department today directed that 133 additional employees be added to the force.

The increase was ordered as a result of a visit to Ellis Island last week by Mr. Post who said the situation there was one which would "take many months to overcome."

"One of the most serious situations was that with regard to the clerical arrangements for issuing certificates of arrival in cases of candidates for citizenship," Mr. Post said, "on account of the lack of funds it has been impossible to do this work since October, 1918 and at present there is an arrearage of 616,400."

"At the rate the immigrants are now arriving this accumulation will be increased 100,000 per month."

Aware of Situation. The secretary said:

"This department is well aware of this situation, which according to reliable reports has existed for some years. The nature of the discrimination is in almost every case so subtle, notwithstanding its effectiveness, that it is almost impossible to take formal action."

"The best solution of the matter seems to be direct transportation of American goods in American ships wherever possible."

In his letter of transmittal to the bulletin Chairman Benson said:

"Of course the suggestion of the secretary that American goods be transported in American ships wherever possible receives my hearty endorsement and is the constant aim of the shipping board."

750 MERCHANT SHIPS TIED UP

WASHINGTON, Sept. 29.—More than 750 merchant ships are tied up in British ports and several hundred in Japanese harbors, according to official despatches here today from London. Low freight rates and the general slump in ocean traffic are said to be the cause.

Only 26 shipping board vessels are laid up in American ports it is understood and officials estimate that not more than 150 ships will be tied up in this country at any one time during the coming year.

Stockholders Will Keep Packing Plant. SIOUX CITY, Iowa, Sept. 29.—Midland Packing company stockholders in session here today virtually decided to keep the plant that has been in the hands of the receivers. ## AMERICAN LEGION FAVORS RIGOROUS EXCLUSION OF JAPS

Question Almost Creates Riot in Annual Convention

WILL REMAIN NEUTRAL IN POLITICS

CLEVELAND, Sept. 29.—F. L. Galbraith, Jr., of Cincinnati, was elected National commander of the American Legion at its second annual convention here today.

Galbraith received the majority necessary for choice on the second ballot, his closest opponents being Hanford McNider of Iowa and J. F. J. Herbert of Massachusetts.

On motion of McNider, seconded by Herbert, the election of Galbraith then was declared unanimous. The adoption of a resolution which puts the American Legion on record as being in favor of the rigorous exclusion of Japanese as immigrants, cancellation of the so-called "gentlemen's" agreement with Japan, the exclusion of "picture brides" and the decision of the convention to continue its policy of "strict neutrality" in regard to political questions were the predominating questions acted upon.

Japanese Debate Stormy. The Japanese question came up in the morning session and created the stormiest debate of the session it being necessary for the sergeant-at-arms and his assistants, to quell the delegates several times.

Other features of the report adopted by the convention were: Commending the work of the department of Hawaii in securing preference for American citizens in employment and demanding citizen labor on federal work.

Urging that colleges give entrance credit for work in American history and civil government, and that these subjects be taught in elementary and high schools and required for graduation.

Urging legion posts to see that all members of the legion qualify for and exercise the right of suffrage.

Favoring many Americanism activities including work for and among immigrants, for school children and among aliens within the United States.

Not Eligible for Re-Election. When the committee on constitutional amendments made its report, it suggested a few amendments to certain articles of the constitution, the principal one being that "no person shall be eligible for re-election to the office of national commander or national vice-commander" the report was adopted. It did not mention politics.

However, as explained by Chairman Eric Fisher Wood, Pennsylvania, because of the discussion on the question of political restrictions, it was decided by the committee as a whole a majority report and a minority report should be presented. The report of the majority, which carried by 33 to 3 in committee, recommended "that the legion thru its organization has the right under its charter and constitution to ascertain for the information of its members the attitude of candidates for public office toward such policies and principles."

The minority report merely recommended that "the report of the majority be defeated."

Majority Report Defeated. The debate which followed was almost as stormy as that which followed the presentation of the Japanese question. A motion for a roll call was finally made and the vote stood 963 voting against the majority report; 142 voting for it, 3 not voting. As the matter now stands, the legion will pursue its past attitude in regard to political restrictions—"strict neutrality."

Other reports adopted were those on disabled soldiers and insurance; departmental organization; publicity.

The publicity report asked the cooperation of the press in not featuring as a class the name of ex-service men in connection with crime.

The following vice-commanders were elected: John G. Emery, Grand Rapids, Mich.; E. J. Winslett, Saberville, Ala.; Thomas J. Goldingay, Newark, N. J.; C. G. Pendill, Kenosha, Wis.; and J. G. Scroggins, Reno, Nev.

John W. Izzer of Montgomery, Ala., was elected national chaplain, after which the convention adjourned.

## REPUBLICANS ARE CLAIMING GAINS IN U. S. SENATE

Believe That They Will Have Net Gain of Eight

WILL ALSO INVADE SOUTHERN STATES

CHICAGO, Sept. 29.—Republican national committee headquarters tonight issued a statement prepared by John T. Adams, vice chairman of the committee; Senator Harry S. New and Congressman Martin B. Madden, claiming that of the thirty-four senators to be elected in November, the Republicans are sure of fifteen, reasonably sure of eight others, and have a fighting chance for still another two.

Present indications, they said, were that the Republicans would elect twenty-three showing a net gain of eight.

The present senate stands for twenty-nine Republicans and forty-seven Democrats. A net gain of eight would make the Republican strength fifty-seven and the Democrats thirty-nine, or a Republican majority of seventeen, the statement showed.

Of the 435 congressmen to be elected the Republicans expected to make a net gain of twenty-five, the statement said. The present Republican majority in the house is forty-six. The Republican majority in the next congress would not be less than seventy-one, they estimated.

Fifteen Senators Certain. The fifteen Republican senatorial candidates rated as certain of election are in California, Connecticut, Idaho, Indiana, Illinois, Iowa, Kansas, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Vermont and Washington.

The statement added:

"Of these states California, Idaho and South Dakota are expected to elect Republican successors to Democratic senators, a gain of three. The following states the Republicans have better than an even chance:

"Colorado, Kentucky, Maryland, Missouri, Oklahoma, Utah, Wisconsin and Oregon. Of these Colorado, Kentucky, Maryland, Oklahoma and Oregon are said to be set to return Republican candidates as successors to Democratic senators making a net gain in this group of five, or a total net gain of eight in the two groups which would increase the Republican strength in the new senate to fifty-seven, leaving the Democrats thirty-nine."

Arizona and Nevada Doubtful. "In two states the situation is in doubt. They are Arizona and Nevada where successors to Democrats are to be elected. If both those states should be lost to the Republicans which is not conceded, it would not affect the estimated Republican gain of eight in the new senate."

"The Democratic candidates who are conceded the election are:

Alabama (two); Arkansas, Florida, Georgia, Louisiana, North Carolina, South Carolina, and Virginia."

"East of the Mississippi river reports at headquarters indicate that there is not a section where the Republicans will lose congressmen, but they stand a good chance of increasing the Republican lead. In the New England states the Democrats are expected to make no gains but will lose at least one district in Connecticut."

In the old middle states the Republicans look for a gain of three from Pennsylvania, two from New Jersey and one in Maryland. In the old middle group they

## HARDING NEAR DEATH WHEN CAR LEAVES THE RAILS

Private Car Leaves Rails and is Dragged  
Across Narrow Chasm—Is Abandoned but  
Does Not Interfere With Trip—Senator  
Compares Wrecked Car With Car of State

ON BOARD SENATOR HARDING'S SPECIAL TRAIN, Sept. 29.—Senator Harding's special train escaped a serious wreck by a hair's breadth today as it was carrying the Republican nominee across West Virginia on the last leg of his last campaign trip.

His private car, Ideal, left the rails near Nillwood, a small mountain village, and with its trucks banging themselves to pieces over the railway ties, was dragged across a high and narrow trestle at the rate of thirty miles an hour. The train came to a stop beyond the chasm just as the rear wheels of the Ideal veered off the ties entirely and buried themselves in the gravel.

Cause by Defective Casting  
The other cars of the train did not leave the rails and no one was injured. A defective casting in the front truck, which jolted to pieces as the car crossed a switch, was blamed by train officials for the accident. In its perilous career the heavy car splintered ties and snapped off rail bolts for more than three hundred yards and two of the ties in the trestle it crushed entirely.

The special minus the abandoned "Ideal" tonight turned northward for Marion, the senator completing his three-day trip with two evening addresses in Ohio. During the day he had spoken in a half dozen West Virginia cities and had addressed an afternoon meeting at Ashland, Ky.

Americanism, representative government and governmental economy were features of the nominee's speeches, and he also touched on most of the other issues of the campaign. At Ashland he condemned pork barrel rye and harbor legislation and asked for a more efficient development of the nation's inland waterways.

In speaking to a crowd at the railway station at Mason City, Va., he compared his abandoned private car to the American car of state.

Car of State Gets Off Track  
"The great car of state," he said, "going forward to the fulfillment of national engagements, somehow got off the track last year over in Paris, and I left things in bad order and I think may be crossing the tracks of internationalism if it had not been for the guard rail of constitutionalism in the senate, to prevent us from completely leaving the track, we might have had a serious wreck of the United States. So I am telling you that instead of trying to put a broken-up car back on the track, let us cut it loose and go on and keep our engagements with all the world."

The other West Virginia cities in which the senator spoke during the day were Sistersville, Racine, Point Pleasant, and Huntington, and his two stops in Ohio were at Ironton and Portsmouth. In nearly every address he stressed his determination to "end one-man government" and to preserve national integrity from any encroachment by a council of foreign powers.

MINERS VOTE TO  
RETURN TO WORK

BLOOMINGTON, Ill., Sept. 29.—Miners in the employ of the McLean County Coal company, who have been on a "vacation" since Sept. 10, voted today to go back to work pending a settlement of their wage differences with the company. It is thought the mine will re-open Friday.

The men engaged in actual digging of coal and that receive advance wages given to the common laborers connected with the mine had made the miners' wages less than that of the laborers. All mines in the northern fields where thin veins prevail were in a similar condition. Operators of the northern fields will meet committees of miners in Chicago Thursday to adjust the dispute.

## ADD ADDITIONAL CLERICAL FORCE TO HANDLE IMMIGRANTS

One Hundred and Thirty  
Three Employees Added  
to Force

LACK OF FUNDS  
HANDICAPS WORK

WASHINGTON, Sept. 29.—To meet the "rush" of work of Ellis Island caused by the influx of immigrants, the Immigration and Naturalization Service today directed that 133 additional employees be added to the force.

The increase was ordered as a result of a visit to Ellis Island last week by Mr. Post who said the situation there was one which would "take many months to overcome."

"One of the most serious situations was that with regard to the clerical arrangements for issuing certificates of arrival in cases of candidates for citizenship," Mr. Post said, "on account of the lack of funds it has been impossible to do this work since October, 1918, and at present there is an arrearage of \$116,400."

"At the rate the immigrants are now arriving this accumulation will be increased 100,000 per month."

PRIMARY CANVASS  
FURTHER DELAYED

Probably Will Not Be Completed  
Before a Week From Saturday  
—Take Three Days to Certify  
Cook County Vote.

Springfield, Ill., Sept. 29.—Canvass of the state primary votes and official announcements of candidates is not expected in the secretary of state's office until Friday or Saturday of next week. This further protective delay was announced today following telephonic communication with Chicago. The Chicago election commission indicated that its report to the Cook county clerk would not be made until next Monday.

The county clerk said it would take about three days for him to make the report of county totals to the secretary of state. After that it will take the state canvassing board two days. An earlier canvass than a week from Saturday, it was announced, therefore appears very improbable.

## AMERICAN LEGION FAVORS RIGOROUS EXCLUSION OF JAPS

Question Almost Creates  
Riot in Annual  
Convention

WILL REMAIN NEU-  
TRAL IN POLITICS

CLEVELAND, Sept. 29.—P. L. Galbraith, Jr., of Cincinnati, was elected National commander of the American Legion at its second annual convention here today.

Galbraith received the majority necessary for choice on the second ballot, his closest opponents being Sanford McNider of Iowa and J. F. J. Herbert of Massachusetts.

On motion of McNider, seconded by Herbert, the election of Galbraith then was declared unanimous. The adoption of a resolution which puts the American Legion on record as being in favor of the rigorous exclusion of Japanese as immigrants, cancellation of the so-called "gentlemen's" agreement with Japan, the exclusion of "picture brides" and the decision of the convention to continue its policy of "strict neutrality" in regard to political questions were the predominating questions acted upon.

Japanese Debate Stormy

The Japanese question came up in the morning session and created the stormiest debate of the session it being necessary for the sergeant-at-arms and his assistants, to quell the delegates several times.

Other features of the report adopted by the convention were: Commending the work of the department of Hawaii in securing preference for American citizens in employment and demanding citizen labor on federal work.

Urging that colleges give entrance credit for work in American history and civil government, and that these subjects be taught in elementary and high schools and required for graduation.

Urging legion posts to see that all members of the legion qualify for and exercise the right of suffrage.

Favoring many Americanism activities including work for and among immigrants, for school children and among adults within the United States.

For Eligible Re-Election  
When the committee on constitutional amendments made its report, it suggested a few amendments to certain articles of the constitution, the principal one being that "no person shall be eligible for re-election to the office of national commander or national vice-commander" the report was adopted. It did not mention politics.

However, as explained by Chairman Eric Fisher Wood, Pennsylvania, because of the discussion on the question of political restrictions, it was decided by the committee as a whole a majority report and a minority report should be presented.

The report of the majority, which carried by 33 to 3 in committee, recommended "that the legion thru its organization has the right under its charter and constitution to ascertain for the information of its members the attitude of candidates for public office toward such policies and principles."

The minority report merely recommended "that the report of the majority be defeated."

The debate which followed was almost as stormy as that which followed the presentation of the Japanese question. A motion for a roll call was finally made and the vote stood 963 voting against the majority reports; 142 voting for it, 3 not voting. As the matter now stands, the legion will pursue its past attitude in regard to political restrictions—"strict neutrality."

Other reports adopted were those on disabled soldiers and insurance, departmental organization, publicity.

The publicity report asked the cooperation of the press in not featuring as a class the name of ex-service men in connection with crime.

The following vice-commanders were elected: John G. Emery, Grand Rapids, Mich.; E. J. Winslett, Sabeville, Ala.; Thomas J. Goldingay, Newark, N. J.; C. G. Pendill, Kenosha, Wis., and J. G. Scroggum, Reno, Nev.

John W. Inzer of Montgomery, Ala., was elected national chaplain, after which the convention adjourned.

## REPUBLICANS ARE CLAIMING GAINS IN U. S. SENATE

Believe That They  
Will Have Net Gain  
of Eight

WILL ALSO INVADE  
SOUTHERN STATES

CHICAGO, Sept. 29.—Republican national committee headquarters tonight issued a statement prepared by John T. Adams, vice chairman of the committee; Senator Harry S. New and Congressman Martin B. Madden, claiming that of the thirty-four senators to be elected in November, the Republicans are sure of fifteen, reasonably sure of eight others, and have a fighting chance for still another two.

Present indications, they said, were that the Republicans would elect twenty-three showing a net gain of eight.

The present senate stands forty-nine Republicans and forty-seven Democrats. A net gain of eight would make the Republican strength fifty-seven and the Democrats thirty-nine, or a Republican majority of seventeen, the statement showed.

Of the 435 congressmen to be elected the Republicans expected to make a net gain of twenty-five, the statement said. The present Republican majority in the house is forty-six. The Republican majority in the next congress would not be less than seventy-one, they estimated.

Fifteen Senators Certain

The fifteen Republican senatorial candidates rated as certain of election are in California, Connecticut, Idaho, Indiana, Illinois, Iowa, Kansas, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Vermont and Washington.

The statement adds:

"Of these states California, Idaho and South Dakota are expected to elect Republican successors to Democratic senators, a gain of three. The following states the Republicans have better than an even chance:

"Colorado, Kentucky, Maryland, Missouri, Oklahoma, Utah, Wisconsin and Oregon. Of these Colorado, Kentucky, Maryland, Oklahoma and Oregon are said to be set to return Republican candidates as successors to Democratic making a net gain in this group of five, or a total net gain of eight in the two groups which would increase the Republican strength in the new senate to fifty-seven, leaving the Democrats thirty-nine.

Arizona and Nevada Doubtful  
"In two states the situation is in doubt. They are Arizona and Nevada where successors to Democrats are to be elected. If both those states should be lost to the Republicans which is not conceded, it would not affect the estimated Republican gain of eight in the new senate.

"The Democratic candidates who are conceded the election are:

"Alabama (two); Arkansas, Florida, Georgia, Louisiana, North Carolina, South Carolina, and Virginia.

"East of the Mississippi river reports at headquarters indicate that there is not a section where the Republicans will lose congressmen, but they stand a good chance of increasing the Republican lead. In the New England states the Democrats are expected to make no gains but will lose at least one district in Connecticut.

In the old middle states the Republicans look for a gain of three from Pennsylvania, two from New Jersey and one in Maryland. In the old middle group they expect to gain three members in Ohio and one in Illinois.

Expect to Gain in South  
"Invading the southern states so-called—they count on a gain of two in Tennessee, two in North Carolina, one in Oklahoma and two in Kentucky.

"From the Mississippi river to the mountains they expect to add four Republicans from Missouri, one from Kansas and one from Colorado. On the other side of the mountains they count on a gain of two in California and one in Nevada. These estimates do not take into account a possible landslide vote for the Republican ticket. If Senator Harding and Governor Coolidge could find themselves on the crest on a real tidal wave, they would of course carry with them a certain number of Republican congressional candidates in districts normally considered Democratic."

Williams Says Plot  
Framed in Cicotte's  
Room

CHICAGO, Sept. 29.—Confessions from Claude Williams and Oscar Felsch admitting that they were bribed to "throw" last year's world series were made public today, and at the same time the grand jury investigating the baseball scandal told its first action against the gamblers who are said to have engineered the deal by inducing two men whose identity was not partly revealed.

"Brown" and "Sullivan" were the names under which true bills were voted against the alleged gamblers and both were said to be from Boston, or New York. Later however, it came out that the jury believed these names to be mythical and used only by the men when they discussed the series "throwing" with the ball players. Possibility that they are two men whose names already have been brought before the jury and who are nationally known was expressed by an official in the state's attorney's office.

Used Cicotte's Room.

The statement by Williams and the newspaper reports of Felsch's confession tallied with those made yesterday by Eddie Cicotte and Joe Jackson. They revealed that last year's world's series was settled in a tiny room in a small South Side hotel. In this room occupied by Eddie Cicotte, once the American League's leading pitcher, the deal was made which "threw" the world's series, wrecked the world championship team and brought some of the greatest ideas in baseball to disgrace.

According to the sworn statement made by Claude Williams, who lost three of the world's series games, he and "Chick" Gandil, "Buck" Weaver, Eddie Cicotte who lost two games, and "Happy" Felsch, whose error helped lose one game, met here to barter with "Brown" and "Sullivan" to lose the games.

"After we had agreed that we were willing to 'throw' the series," Williams said, "we went out one at a time and made our bargains with 'Brown' and 'Sullivan'."

Williams said he received \$10,000 and that he gave \$5,000 to Jackson, a statement which tallies with the confession made by Jackson yesterday. He was supposed to get \$20,000, he said.

Felsch, according to reports of his confession said he received \$5,000 which he found in his locker at the club house, but that he "never had a chance to really help lose the series."

Did Not Want to Get in Deal.  
His one glaring error of the series—when he dropped a fly ball—was an accident and he was warned afterwards by the other players not to be so awkward in making his misplays, he was quoted as saying. The outfielder declared he didn't want to "get in on the deal," at first but the other players at the hotel conference told him it would be easy.

He said he had been promised \$20,000 but was double crossed. Abe Attell and Gandil were the ones he believed guilty of the double crossing.

Felsch denied the White Sox had thrown any games this season and said the deal was made in the bribery had felt all season that they would be exposed sooner or later. He confirmed the confessions of Cicotte and Jackson, made yesterday.

Tell of Chase-Magee Case.  
John Heydler, president of the National League and John McGraw, manager of the New York Giants, today told the jury details of the Lee Magee and Hal Chase cases and also concerning the dropping of Heinie Zimmerman.

McGraw was requested to return on Tuesday and bring Fred Toney, New York pitcher, and Benny Kauff, outfielder with him. Heydler was asked to appear again at his convenience later the world's series.

McGraw is said to have told the jury that he dropped Hal Chase from his club after President Heydler had told him Magee had confessed that Chase bribed him to throw games. He said he had heard of many other gambling activities of Chase's before the Magee case.

Zimmerman was dropped from the New York team, McGraw is said to have told the jury, because information had come to the New York manager that the third baseman offered Benny Kauff \$500 to help throw games.

"I believe Kauff was innocent," McGraw said, "but I got rid of Chase and Zimmerman, even tho I knew it would seriously injure my team, because I didn't want such men on the club."

Heydler's testimony was largely the interview he gave newspapermen on Sunday night telling of his private investigation, how Chase's (Continued from Page Four.)

## JAP BELIEVES IN FREEDOM OF WORLD'S MARKETS

Is Essential to the Economic  
Restoration of the  
World

MANY COMPLEX  
PROBLEMS ARISE

BRUSSELS, Sept. 29.—Freedom of the world trade is the most essential condition for the increase of production which must bring about economic restoration of the world in the opinion of Kogo Mori, Japanese commissioner in London, whose views have been laid before the International Financial conference in session here.

This involves complete elimination of restrictions on both imports and exports, especially those applying to raw materials, he says. One of the delegates, commenting on Mr. Boyden's advocacy of conciliation of former enemies and the notice he gave that the United States would give "no immediate aid to Europe" said: "The allies can no more forget what Germany owes them than the United States can forget what is owing to them by Europe."

All the delegates said they recognized Mr. Boyden's address as courageous but some criticized it as severe on the victorious allies who are creditors of Germany.

Other delegates said they regarded it as a useful, if not necessary, reminder to Europe that she must help herself before asking further help from the United States. Mr. Boyden's seat was vacant during the comment on his address as he had left for the day.

HARDING'S SPEECH  
BRINGS COMMENT

WASHINGTON, Sept. 29.—Criticism of the treasury plan of war and post-war finance, and the speeches by Senator Harding drew a statement tonight from Secretary Houston in which he accused the Republican nominee of a partisan attempt to deprive the American people of their legitimate pride in financing the war. Statements attributed to the senator relative to the increases of the public debt under the present administration were likewise attacked by Mr. Houston. "By invading," he said, "Senator Harding 'knows little of the subject himself and that he is being badly advised.'"

The senator's advisers, Mr. Houston added, appeared "not to have taken the trouble to ascertain the facts or are willing to misrepresent them for partisan purposes."

porch method been more than justified. Certain it is that every public utterance of the Republican candidate has strengthened him in the public mind.

The American Legion has gone on record as strongly opposed to Japanese immigration. In fact, the Legion will take some drastic steps about the relationship between Japan and the U. S.

Certainly the Legion has tackled a big question—one that demands a good deal more consideration than can usually be given at any convention.

While this wave of price reductions is under way everybody is hoping that the men who own and operate the coal mines will get into the spirit. However, with cars scarce and the demand very acute, it is not likely that the coal barons will be in a hurry about cutting prices. Just before the war the mines were in a bad way financially and the coal men are mightily pleased with the present opportunity to make up their losses and then some.

The unofficial canvass of votes in Chicago shows that Len Small of Kankakee has been nominated for governor on the Republican ticket. His majority over Lieut. Gov. Oglesby is less than 4,000. Nevertheless he is the party nominee and with the election less than five weeks off, it is certainly time to stop warring within the party. There is no good reason why Republicans should keep on quarreling and so make it possible for the election of a Democratic government.

## JUVENILE COURTS ABROAD.

The example set by the United States in establishing juvenile courts has now been followed by all the principal countries of Europe. Spain, the last to fall in line, has now adopted the modern viewpoint that delinquent children should not be treated as criminals, but rather as victims of adverse conditions and surroundings. In working out the details of the law Spanish authorities have followed America's experience, according to information received by the Children's Bureau of the United States Department of Labor.

Under the Spanish law the children's judge is not necessarily a member of the bench. He is assisted by two advisory members appointed by the Commission for the Protection of Children. Privacy is guarded very closely in the Spanish juvenile courts; no one except probation officers is allowed in the court except by special permission, and the press is forbidden to publish

any information about cases of juvenile delinquents.

Since Chicago established the first juvenile court in 1899 similar courts have been established in England, France, Belgium, Holland, Denmark, Switzerland, Italy, Germany, Russia, Austria and Hungary.

FATHER NOAH

Father Noah built his ark, just behind the village pound; and he heard some fool remark from each guy who snooped around. All the decks, all the wits, joshed him as he hewed his planks; all the sports were throwing fits, laughter sounded from their ranks. Why should Noah build an ark, when there was no water near? It was folly, rank and stark, his absurdity was clear. Father Noah rolled along, headless of the jeering mob, nailing shingles with a song—he was Johnnie on the job. When the ark was fit to sail, all the sky grew dark and dour, there were gusts of wind and hail, then a rained three feet an hour. He had to care for what men said, when he built his Shamrock Five, all the beasts would now be dead, which are very much alive. All the elephants and fleas would be resting in their graves; all the cows and bumble bees would be perished in the waves. If we knew we're doing right, that our ark is safe and sane, we should lead to comments light from the heavens and vain. Every man was bravely works at a useful task or trade, finds some cheap, derisive snarls on the loafers' rags displayed. But he chortles and he sings as he piles his gleaming tools, for there are no grievous stings in the empty words of fools.

## RAINEY EXPLAINS BONUS BILL PLAN

Congressman from This District Talks to Members of Harrison A. Dickson Post Veterans of Foreign Wars—Interesting Meeting Held.

Members of Harrison A. Dickson Post No. 503, Veterans of Foreign Wars, held an enthusiastic meeting in Woodmen hall Wednesday evening. There was a large attendance and the feature of the evening was an address by Congressman Rainey who explained the provisions of the bonus bill.

Frank Kirk, the well known minstrel man, was present and gave a musical selection playing an electrical banjo which he has recently invented. He also gave a number of songs. Miss Meiss, who was an entertainer in France, gave a talk and H. H. Bancroft made an address which made a hit with the veterans.

The main event of the evening was a speech by Congressman H. T. Rainey, the purpose of which was to explain the bonus bill and give the phases of the fight being made to pass it.

After outlining the great record of American soldiers in other wars, Mr. Rainey told of the great work done in the world war. He told of the heavy war debt of this nation and continued that while the money Russia owes this country will never be paid in money, in the war six months longer than she would without the loan. Mr. Rainey said the work done by Americans in war showed this country did not need compulsory military training.

Mr. Rainey told of the fight he has been making to pass the cash bonus bill and said that neither Republican nor Democratic platforms mentioned it. One plan suggested is to pay bonuses at the end of 20 years but men could, under provisions of the bill, borrow money on this bonus. Another, and the one advocated by Mr. Rainey, is to pay one and one half dollars for every day served in the army and two dollars if applied on a home, vocational training or land settlement.

A regular business meeting was held after Mr. Rainey's address. The following made application for membership in the post:

## CONGREGATIONAL CHURCH PICNIC

Tomorrow, Friday, the Congregational church, Sunday school and every one connected with the church or congregation, are invited to a picnic at Nichols Park. It is to be as soon as the pupils get out of school. All are asked to come well supplied with good things to eat and help have a fine, merry time. There will be hot coffee and all preparations for every one who comes.

## "MY, HOW COLD!"

"My, how cold!" was the exclamation on the lips of every one about yesterday. And it grew colder as the day advanced and then came anxious questions regarding frost. The clouds were the most favorable omen in that direction and up to a late hour they seemed inclined to dispel so that the community has escaped that visitation thus far. A great deal of corn is safe and a great deal more is not so that more of the warm weather of last week would be acceptable.

## MATRIMONIAL

McGrath-Begnal.

The marriage of Thomas McGrath and Miss Clara Begnal, both of Murrayville precinct, was solemnized at 9:30 o'clock Wednesday morning at the Catholic church in Murrayville, Rev. Father Flynn officiating. The impressive ceremony was witnessed by a large company of the relatives and friends of the people.

The bride is the daughter of Mr. and Mrs. James Begnal well known residents of Murrayville precinct. She is a young woman of charming personality and is very popular in her home community.

Mr. McGrath is a son of Mrs. Kate McGrath and is also well and favorably known in the Murrayville neighborhood. He and his bride begin wedded life under very happy auspices and have the best wishes of their wide circle of friends.

## Copley-Smith

The marriage of Miss Florence N. Smith of Waverly and Elmer E. Copley of Virden, was solemnized at 2 o'clock Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. John Smith. The ceremony was performed by Rev. Mr. Mathis of Hillsboro, a relative of the bride, in the presence of only the immediate relatives and friends of the young people.

The house was prettily decorated for the occasion, autumn flowers being used in great profusion and with charming effect. The bride was attired in white silk and wore a corsage bouquet of white roses.

Following the ceremony a luncheon was served to a company of relatives and friends at the Smith home. Later the young people were taken to Auburn by Dr. and Mrs. Paul Allyn by automobile from whence they boarded a C. & A. train for a brief trip to the south.

Both young people are well and favorably known in their home communities and have a host of friends to extend congratulations and good wishes at this time. The groom is a son of Mr. and Mrs. Len Copley, living east of Virden. He was in the army service during the war time and is now engaged in farming. Mrs. Copley has for some years been engaged in nursing, for which profession she has had special training.

## Smith-Massey

At a simple but impressive wedding ceremony at the home of Mr. and Mrs. Horace C. Massey south of the city, their daughter, Miss Freda Massey, became the bride of Albert Smith of Alexander. The ceremony took place at 5 o'clock Wednesday afternoon, the beautiful ring service being used. The officiating clergyman was Rev. M. L. Pontius, pastor of Central Christian church. The young people were attended by Miss Grace Massey, sister of the bride, and Harold Spaulding.

The bridal party entered the parlor from the west as the wedding music was played on the Victrola. The room was prettily decorated, fall flowers in profusion being used with fine effect.

The bride was gowned in georgette crepe with shadow lace and rosebud trimming, and carried a bouquet of bride's roses. The bridesmaid wore blue taffeta and georgette.

After the ceremony came hearty congratulations from the assembled relatives and friends, and later a six course wedding supper was served. The cutting of the bride's cake occasioned much merriment, Carl Massey receiving the thimble, Wallace Carter the ring and Albert Smith the darning needle.

The bride and groom received a large number of wedding gifts, attesting the esteem in which they are held by their friends.

Mrs. Smith is the elder daughter of Mr. and Mrs. Horace C. Massey and has spent her entire life in Morgan county. She is a young woman of charming person-

## Passavant Hospital A Community Asset

In considering the ownership of Passavant hospital it is worth while to remember that the original members of the association as formed, those who shared the original responsibility, were Brooklyn M. E. church, Centenary M. E. church, First Baptist church, Mt. Emory Baptist church, Northminster Presbyterian church, Central Christian church, Congregational church, Grace M. E. church, Bethel A. M. E. church, State Street Presbyterian church, Trinity Episcopal church, Westminster church, the Ladies' Hospital Aid Society of Jacksonville.

In the original transfer by the Lutheran organization to the hospital association as authorized by the court, provision was made for including in the association other churches and organizations as the trustees might from time to time decide.

It is a familiar fact that Passavant hospital is an asset to the community and its sphere of usefulness extends beyond the boundaries of Morgan county. With passing years the demands on the hospital have increased and the facilities needed today are much larger than those needed a few years ago. The latest addition to the hospital building provided a number of rooms but as the hospital occupies a larger place in community life, so the demands are larger and it is a rare thing to find the institution without nearly every room occupied.

During the last flu epidemic in Jacksonville the work of the Passavant hospital was particularly busy and is deservedly popular in her home community.

The groom is the son of Mr. and Mrs. Arthur Smith of the Alexander neighborhood. He is a farmer by occupation and has the high esteem of all who know him. Following the ceremony Mr. and Mrs. Smith left for Springfield and Peoria for a brief visit and upon their return will begin housekeeping on a farm near Alexander.

## MOTION PICTURE MEN IN SESSION

Springfield, Ill., Sept. 29.—Resolutions of vital interest were considered today at the opening session of the Illinois Exhibitors' Alliance of the motion picture owners of America. "Poorer pictures for higher prices," was the manner in which President Joseph Hopp of Chicago characterized a possible Wall street monopoly of the industry. The practice of producers encouraging stars to jump contracts was officially frowned upon. A resolution in reaffirmation of the position against legalized censorship was unanimously passed. Hereafter movie screens thruout the state will be used to support such candidates for the legislature as will oppose unfair legislation measures which will tend to harm the industry.

## POWDER BOMB WRECKS ALDERMAN'S HOUSE

Chicago, Sept. 29.—A black powder bomb early today wrecked the home of Alderman John Powers, threw the alderman and five others out of bed and did considerable other damage in the neighborhood, but no one was injured. Mr. Powers said he believed the bomb was planted by political enemies, most of the residents of his ward are Italians. He recently defeated one of their number, Anthony D'Andre, as Democratic committeeman.

## THREATENED RETRIBUTION IN DROGHEDA

Dublin, Sept. 29.—Notices have been posted in Drogheda bearing the following warning: "Drogheda Beware! If in this vicinity a policeman is shot, five of the leading Sinn Feiners will be shot. It is not coercion, it is an eye for an eye. We are human as other Christians but we have restrained too long."

## RIOT STAGED AT PILGRIM MEETING

NEW YORK, Sept. 20.—Police were called to Carnegie Hall last night to eject a crowd of men and women who forced their way into the building during the tercentenary celebration of the landing of the Pilgrims.

The intruders, carrying banners with anti-British inscriptions, created great disorder with shouts of "Hurrah for America!" "Down with England!"

The disturbance reached proportions that it was impossible for the speakers to continue. It was decided to adjourn the meeting without further attempt to complete the program. A group of women who said they were members of an organization known as the "American women's pickets for the enforcement of America's war aims," led the intruders. Some of the banners carried bore the names of British delegates to the tercentenary celebration and characterized delegates as British spies.

Secretary Colby was listed one of the speakers but had appeared up to the time of the disturbance. One of the banners carried by the pickets but which kept furled bore the inscription "Don't speak, Mr. Colby—member of the English flat-bellied Benedict Arnold."

The pickets said there was occasion to show the banner when Mr. Colby failed to appear.

## WELCOME TO THE STUDENTS

This evening the various churches will welcome the students of the business college and other colleges at a general reception. ## "When the Clouds Roll By"

In this picture "Doug" has broken away from the traditional screen stories and has produced a rip-roaring comedy on entirely different lines. The basic principle underlying this feature is quite new to motion pictures and incidentally very daring from the point of view of the accepted screen limitations and ideas. The old adage "it can't be done" has no terrors or difficulties for this star who has proceeded to put over a sparkling story of telling and doing. "Doug" will have surrounded him in the cast of this picture a number of new faces in Fairbanks productions, but every one of them a well known personage.

**FATHER NOAH**  
Father Noah built his ark, just behind the village pound, and he heard some fool remark from each guy who snooted around. All the alecks, all the wits, joshed him as he heaved his planks; all the sports were throwing fits, laughter sounded from their ranks. Why should Noah build a ark, when there was no water near. It was folly, rank and stark, his absurdity was clear. Father Noah rolled along, heedless of the jeering mob, nailing shingles with a song—he was Johnnie on the job. When the ark was fit to sail, all the sky grew dark and dour, there were gusts of wind and hail, then a rained three feet an hour. Had he cared for what men said, when he built his Shamrock Five, all the beasts would now be dead which are very much alive. All the elephants and deas would be resting in their graves; all the caws and humble bees would have perished in the waves. If we know we're doing right, that our goal is safe and sane, we should heed to comments light from the frowns and vain. Every man who bravely works at a useful task or trade, finds some cheap, derisive sneer on the lips of fools. He is despised, but he chortles and he sings as he piles his glowing stings, for there are no glorious stings in the empty words of fools.

**RAINEY EXPLAINS BONUS BILL PLAN**

Congressman from This District Talks to Members of Harrison A. Dickinson Post Veterans of Foreign Wars — Interesting Meeting Held.

Members of Harrison A. Dickinson Post No. 503, Veterans of Foreign Wars, held an enthusiastic meeting in Woodmen hall Wednesday evening. There was a large attendance and the feature of the evening was an address by Congressman Rainey who explained the provisions of the bonus bill. Frank Kirk, the well known minstrel man, was present and gave a musical selection playing an electrical banjo which he has recently invented. He also gave a number of songs. Miss Meiss, who was an entertainer in France during the war, gave a talk and H. H. Bancroft made an address which made a hit with the veterans.

The main event of the evening was a speech by Congressman H. T. Rainey, the purpose of which was to explain the bonus bill and give the phases of the fight being made to pass it.

After outlining the great record of American soldiers in other wars, Mr. Rainey told of the great work done in the world war. He told of the heavy war debt of this nation and continued that while the money Russia owes this country will never be paid in money, we were repaid by Russia staying in the war six months longer than she would without the loan. Mr. Rainey said the work done by Americans in war showed this country did not need compulsory military training.

Mr. Rainey told of the fight he has been making to pass the cash bonus bill and said that neither Republican nor Democratic platforms mentioned it. One plan suggested is to pay bonuses at the end of 20 years but men could, under provisions of the bill, borrow money on this bonus. Another, and the one advocated by Mr. Rainey, is to pay one and one half dollars for every day served in the army and two dollars if applied on a home, vocational training or land settlement.

A regular business meeting was held after Mr. Rainey's address. The following made application for membership in the post:

Dr. T. O. Hardesty, Earl J. Reed, Wilbur R. Spencer, Guy E. Downs, Adam L. Hills, Gibb M. Johnson, Earl J. Myers, John A. McFarland, Joe C. Simmons, G. S. Alexander, James M. Barnes, Albert T. Rapsther, Albyn W. Adams, Isaac Reeve, R. H. Ogle, Charles E. Fletcher.

Speth Brothers, photographers, presented the post with a beautiful picture of Lieut. Dickson.

The post will meet at Woodmen hall on south side of square, the second and fourth Thursday nights of the month through the year. All foreign service men are invited to attend these meetings.

**"MY, HOW COLD!"**

"My, how cold!" was the exclamation on the lips of every one about yesterday. And it grew colder as the day advanced and then came anxious questions regarding frost. The clouds were the most favorable omen in that direction and up to a late hour they seemed inclined to dispel so that the community has escaped that visitation thus far. A great deal of corn is safe and a great deal more is not so that more of the warm weather of last week would be acceptable.

**MATRIMONIAL**

McGrath-Begnal.

The marriage of Thomas McGrath and Miss Clara Begnal, both of Murrayville precinct, was solemnized at 9:30 o'clock Wednesday morning at the Catholic church in Murrayville. Rev. Father Flynn officiating. The impressive ceremony was witnessed by a large company of the relatives and friends of the people.

The bride is the daughter of Mr. and Mrs. James Begnal well known residents of Murrayville precinct. She is a young woman of charming personality and is very popular in her home community.

Mr. McGrath is a son of Mrs. Kate McGrath and is also well known in the Murrayville neighborhood. He and his bride began wedded life under very happy auspices and have the best wishes of their wide circle of friends.

**Copley-Smith**

The marriage of Miss Florence N. Smith of Waverly and Elmer E. Copley of Virden, was solemnized at 2 o'clock Tuesday afternoon at the home of the bride's parents, Mr. and Mrs. John Smith. The ceremony was performed by Rev. Mr. Mathis of Hillsboro, a relative of the bride, in the presence of only the immediate relatives and friends of the young people.

The house was prettily decorated for the occasion, autumn flowers being used in great profusion and with charming effect. The bride was attired in white silk and wore a corsage bouquet of white roses.

Following the ceremony a luncheon was served to a company of relatives and friends at the Smith home. Later the young people were taken to Auburn by Dr. and Mrs. Paul Allen by automobile from whence they boarded a C. & A. train for a brief trip to the south.

Both young people are well and favorably known in their home communities and have a host of friends to extend congratulations and good wishes at this time. The groom is a son of Mr. and Mrs. Ben Copley, living east of Virden. He was in the army service during the war time and is now engaged in farming. Mrs. Copley has for some years been engaged in nursing, for which profession she has had special training.

**Smith-Jassey**

At a simple but impressive wedding ceremony at the home of Mr. and Mrs. Horace C. Massey south of the city, their daughter, Miss Freda Massey, became the bride of Albert Smith of Alexander. The ceremony took place at 5 o'clock Wednesday afternoon, the beautiful ring service being used. The officiating clergyman was Rev. M. L. Pontius, pastor of Central Christian church. The young people were attended by Miss Grace Massey, sister of the bride, and Harold Spaulding.

The bride and groom entered the parlor from the west as the wedding music was played on the Victrola. The room was prettily decorated, fall flowers in profusion being used with fine effect.

The bride was gowned in georgette crepe with shadow lace and rosebud trimming, and carried a bouquet of bride's roses. The bridesmaid wore blue taffeta and georgette.

After the ceremony came hearty congratulations from the assembled relatives and friends, and later a six course wedding supper was served. The cutting of the bride's cake occasioned much merriment, Carl Massey receiving the thimble, Wallace Carter the ring and Albert Smith the darning needle.

The bride and groom received a large number of wedding gifts, attending the esteem in which they are held by their friends.

Mrs. Smith is the elder daughter of Mr. and Mrs. Horace C. Massey and has spent her entire life in Morgan county. She is a young woman of charming person-

**Passavant Hospital A Community Asset**

In considering the ownership of Passavant hospital it is worth while to remember that the original members of the association as formed, those who shared the original responsibility, were Brooklyn M. E. church, Centenary M. E. church, First Baptist church, Mt. Emory Baptist church, Northminster Presbyterian church, Central Christian church, Congregational church, Grace M. E. church, Bethel A. M. E. church, State Street Presbyterian church, Trinity Episcopal church, Westminster church, the Ladies' Hospital Aid Society of Jacksonville.

In the original transfer by the Lutheran organization to the hospital association as authorized by the court, provision was made for including in the association other churches and organizations as the trustees might from time to time decide.

It is a familiar fact that Passavant hospital is an asset to the community and its sphere of usefulness extends beyond the boundaries of Morgan county. With passing years the demands on the hospital have increased and the facilities needed today are much larger than those needed a few years ago. The latest addition to the hospital building provided a number of rooms but as the hospital occupies a larger place in community life, so the demands are larger and it is a rare thing to find the institution without nearly every room occupied.

During the last flu epidemic in Jacksonville the work of the Pass-

avant hospital stood out boldly and gave proof of the beneficent influence of the institution if any such proof were needed. Those who were familiar with the work of the hospital co-operating with the Red Cross know that the service rendered meant the saving of lives.

Just now hospital authorities and those who are interested in the work of the institution make no secret of the fact that they hope for the public thought to be turned to the hospital in a way that will familiarize them with hospital work of both the past and present. The records show that from year to year the number of persons cared for at the hospital is increasing. New avenues of service have been opened for the hospital and more and more people are realizing that for many kinds of sickness that care can be given at a hospital not possible in the home.

It is with the one purpose of enlarging and bettering the work of Passavant hospital that preparations are now being made for the special campaign to raise a \$30,000 fund, to be expended for the institution.

It is not proposed to raise this money for endowment for the hospital is not in debt. Added equipment is needed; betterments in the operating room must be made; a laundry building is a necessity as a matter of economy, and there must be additions to the equipment if the hospital is to be standardized and hold its proper place.

ally and is deservedly popular in her home community.

The groom is the son of Mr. and Mrs. Arthur Smith of the Alexander neighborhood. He is a farmer by occupation and has the high esteem of all who know him. Following the ceremony Mr. and Mrs. Smith left for Springfield and Peoria for a brief visit and upon their return will begin housekeeping on a farm near Alexander.

SILENCE IS CRIMINAL

A Flaming Dramatic Thunderbolt of Youth Disillusioned and Love Betrayed! The Decade's Most Important Picture.

By believing SILENCE IS CRIMINAL, Frances Forrester, who herself has innocently through criminal neglect of her mother fallen into the morass of social evil, saves Kitty Walton from the clutches of the rounder, Alex Valentine, who believed that SILENCE IS GOLDEN.

**DON'T LET YOUR SON OR GIRL GO IT BLIND!!!**

Tell them frankly WHAT'S WHAT! Or better still, bring them to see the play that will startle YOU as it did New York, Boston, Pittsburgh, Cincinnati, St. Louis

It is far more important to consult the doctor of your future son-in-law than to look up the young man's rating in Bradstreet's! If you doubt it—see this picture with 100 lessons. A play that is making a nation lose its sleep! It tells the truth, wipes out excuses—thrills and entertains.

## To the Investing Public

In fairness to our clients, to the investing public, and to ourselves, S. W. STRAUS & CO., desire to make the following statements:

We have no connection whatever with any other firm, company, or organization of similar name selling stock. We do not deal in stock, either preferred or common. We will continue, now as in the past, to underwrite and offer only first mortgage bonds of unimpeachable safety.

These facts we desire to emphasize because the public announcements of a house of similar name might give the erroneous impression that we have deviated from our policy of dealing only in the highest type of investment security—the first mortgage bond, safeguarded under the Straus Plan.

The fact that our method and plans have been widely imitated is evidence of the soundness of the principles we have followed and clearly indicates the place which this institution occupies in the financial life of the nation.

## GOVERNOR COX DISCUSSES FORCE IN PEACE LEAGUE

Enforcement of Monroe Doctrine Never Required Shot

## REACTIONARY PRESS SUPPRESSING NEWS

TOPEKA, Kans., Sept. 29.—Force as an element of the league of nations was discussed today by Governor Cox of Ohio in his travels, which embraced parts of Kansas and Missouri and closed with a meeting here tonight.

"I believe that the moral influence will be sufficient," the Democratic candidate declared but indicated by behind moral force it was necessary to have armed force and he paralleled the case of the county sheriff, whom he said is seldom called on to use physical force to carry out decrees, but has it if necessary.

The governor also said that Colonel Roosevelt criticized The Hague tribunal for lack of force. Pointing out that in 100 years of its existence the Monroe doctrine has never required a shot for its maintenance, the Democratic presidential nominee said.

"Bear this in mind first, that matters must be submitted to discussion and arbitration and then if any nation violates it, (the league recommendations), they are going to impose the commercial embargo. It is the judgment of men like Elihu Root and former President Taft that the commercial embargo will be an effective preventive of war. It is the judgment of the most profound students of the whole question that

the commercial embargo will be sufficient.

Criticism Arrest. Arrest of a man at Baltimore who interrupted Senator Harding's speech there on Monday night was a subject of caustic criticism by Governor Cox in all of his major speeches today.

He said it was not a "trifling circumstance" but was symptomatic of more serious conditions, and in this connection he enlarged on his charges that the "reactionary press" was suppressing Democratic news of the league fight and buying or absorbing Democratic and independent newspapers. The nominee said.

"If the senatorial oligarchy, which has been running that body and which now attempts to annex the presidency of the United States won that place, what sort of an arbitrary spirit might be expected after March 4, if the people give to the senatorial oligarchy the control not only of the senate but of the presidency as well. It is an index to what we might expect. I ask you men and women who are disposed to be careful and prudent and even conservative in your mental processes as you stand with the greatest responsibility, you ever have been confronted with—I ask you to reflect upon this; this is an index to the arbitrary use of power that we might expect unless it is halted unless it is averted by the prudent exercise of the great body of American voters."

(Continued from Page One.)

key had told him a year ago he suspected some of the White Sox players and how he and William Veeck, president of the Chicago Cubs had obtained a confession from Lee Magee.

Magee Fails to Throw Game. "One incident in Magee's case is amusing," Heydler said, "for while I think he really helped win it."

In July, 1918, Magee was playing second for Cincinnati against Boston. He came to bat with two out and hit an easy grounder which took a bad bounce and he was safe. He was ordered to steal second and ambled down. When half way to second, he stopped but Art Wilson made a wild throw and Magee had to go on to third. He might have scored with the tying run, I think if he had tried, but he didn't. Then Roush knocked a home run. Magee had to come in with the tying run and Roush's run, of course, won the game.

Heydler is said to have told the jury that Magee confessed to him and Veeck that he took part in the throwing of several games.

According to an official in the state's attorney's office the names of two brothers in Des Moines have been brought before the jury. They are said to have placed large bets on the world series and to have been "tipped" that it was "fixed."

Further indictments against gamblers may be expected within a day or two it was said.

The jury will not consider baseball at its session tomorrow but probably will continue the investigation the next day.

## AVIATOR LEAVES MONEY IN PLANE

Pau, France. — A polished gentleman wearing the full regalia of an aviator and presenting a pilot's certificate entered the shops of an airplane works here a few days ago and expressed a desire to purchase an airplane. Accompanied by a representative of the firm he evolved over the Pau field in various machines, showing great virtuosity in aerial gymnastics, looping the loop, sliding on the wing, doing the falling leaf and other stunts until he decided to purchase a biplane for which he gave a certified check as payment. He then flew away.

In a field near San Sebastian, Spain, yesterday, there was found an abandoned airplane in which there was a satchel containing several thousand francs in French silver and gold pieces.

A polished gentleman wearing the full regalia of an aviator had been seen to leave the plane a few minutes after it landed, carrying heavy grips of the same type as the one left in the plane. No one returned for the third grip and it has been confiscated by the Spanish authorities.

The Pau airplane firm has notified the Aero club of France and the Aero club of England as well as the Service of European Aerial Navigation to be on the lookout for an aerial smuggler.

## MANY WOMEN IN U. S. ELIGIBLE TO VOTE

Figures Compiled by Census Bureau Indicate That Over 26,000,000 Women Are Eligible to Vote in November Election.

Washington. — Figures compiled by the Census Bureau and other government departments indicate that the number of women in the United States over 21 years of age is 28,035,000 of whom approximately 26,500,000 are eligible to vote in the November election. This estimate makes a liberal allowance for alien women, American women married to aliens and others ineligible.

Exact figures are not available on the number of women over 21 but barred from voting through various reasons. Census Bureau officials believe, however, that this year at least 1,000,000 of the 5,250,000 foreign-born women in the United States will not yet have become naturalized. In addition there were in 1910, according to the census about 60,000 Indian women most of whom were living on reservations, 8,607 Chinese and Japanese women ineligible to vote, a comparatively small number of American women married to aliens and barred from voting for that reason and a larger number deprived of the ballot under state statutes in harmony with constitutional provisions. The total of these ineligible was estimated at about 1,500,000.

American women married to aliens are not eligible to vote, the Department of Justice has held, but foreign-born women married to American citizens or whose fathers have become American citizens are entitled to the ballot without naturalization proceedings.

The number of eligible male voters in the United States this year has not been determined. Based on an estimated population of 105,000,000, however, the census bureau figured that there are now 43,907,000 men in the United States over 21 years of age of whom probably 31,500,000 would be entitled to vote in November.

## DO NOT BELIEVE NEW VOLCANO IS FORMED

Scientists Think Gas Came Thru Fissure in Earth's Crust — Phenomenon Not New One.

Rome. — Scientists say they do not believe that a new volcano was created on Mount Pisanino, near Spezia, during the earthquakes which began Sept. 7 and continued until Sept. 9, causing the loss of 500 lives.

Tongues of flame and smoke or dust were seen to be emitted from what is popularly supposed to have been a new crater opened near the mountain top.

Frank A. Perrett, the American volcanologist for the Carnegie Institution, who occupies a station at Mt. Vesuvius to observe its operations, has expressed to The Associated Press the opinion that no new volcano has been formed but that the earthquakes caused displacements of subterranean strata causing a fissure in the earth's crust and that gas escaping therefrom was mistaken by onlookers as the opening of a new crater. The phenomenon was not a new one. Mr. Perrett said the seismic instruments showed a towering of the earth level in the earthquake district previous to the tremors. This had been observed on other occasions when earthquakes occurred.

This view is shared by Senator Caprellini, a leading geologist who has been interviewed by the Messagero and who says there may have been an eruption of gas thru a fissure on Mount Pisanino and the supposed column of smoke above the mountain may have been caused by clouds of dust from falling earth.

The tongues of flame, in Senator Caprellini's opinion, may possibly have been inflammable gas from underground wells of oil. He said, however, that volcanoes can appear independently of the structure of the earth's crust and that the greatest catastrophes have occurred from the appearance of volcanoes where nobody expected them.

For example, the geologist continued, Mount Etna rises out of post-Pliocene strata while the volcanoes of the Andes mountains in South America arise from granite rocks. Therefore the nature of the Apuan mountains did not exclude the possibility of a volcano appearing on Mount Pisanino.

## MISS VIDAM CRUM WEDS FRANK B. ADAMS

Prominent Cass County Girl is  
Bride of Alabama Man — Will  
Reside in Birmingham.

Virginia, Sept. 29.—Miss Vida  
Viola Crum and Frank B. Adams

of Birmingham, Ala., were united in marriage at the beautiful country home of the bride near this city at 3 o'clock this afternoon. The ceremony was simple but impressive and was said by the Rev. Max B. Wiles, pastor of Virginia Presbyterian church, in the presence of a company of one hundred relatives and friends. The Crum home had been tastefully decorated for the occasion. Following the ceremony the couple received the hearty congratulations of the assembled company and a dainty luncheon was served. The bride is the daughter of D. M. Crum and has always been a resident of Cass county. She was educated in the Virginia schools and has been active in the church and club life of the community and is one of the county's most popular young women.

The groom is a resident of Birmingham, Ala., where he holds a responsible position as adjuster with a light and power company. After a brief wedding trip they will reside in Birmingham where the groom already has a home prepared for his bride. They will have the best wishes of a large number of friends for many years of wedded happiness. John William Mellen died at

been in ill-health for some time.  
Deceased was born in Pike  
county March 3, 1859, and his  
younger days were spent in that  
county. Later he removed to  
Roodhouse where he resided for  
a number of years.

### TWO INTERESTING JOURNEYS

Daniel Bahaan remarked yester-  
day that he had seen Indianapolis  
when it was but a provincial town  
with wooden walks and plenty of  
stumps all over the ground now  
occupied by that beautiful place.  
His father moved the family  
from Philadelphia in 1851 mak-  
ing the trip partly by rail and  
partly by canal. They little  
thought what a future was in  
store for the capital of Hoosier-  
dom nor did any one else.  
A few years later Mr. Bahaan  
journeyed from Montana to  
Omaha with mule teams and  
found what is now the metropolis  
of Nebraska but an insignificant  
place with few attractions of  
any kind. Chicago was also  
visited and seemed much down in  
the mud but has since been  
raised. On the same trip he  
visited Salt Lake City which he  
found to be in a flourishing condition  
as the Mormons had made it  
blossom with all the rest of that  
basin.

We have sweaters from

ence E. Earl, vice president of

### Dean and Mrs. Scott

Entertain I. C. Freshman Class.  
The Freshman class of Illinois  
College was entertained last  
night at the home of Dean and  
Mrs. Scott, 830 Grove street. The  
class now numbers one hundred  
eleven, including a few specials  
and nearly every member was on  
hand for the first social gather-  
ing of the class. The occasion  
was intended especially to help  
the Freshmen to get acquainted  
with each other and after a  
thorough general mixing there was  
a contest to see who could write  
the most names of class mates,  
not living in his home city. The  
prize, a beautiful Illinois College  
pennant went to Russell Arundel  
of Bluffs. Miss Bradley, with  
Miss Spink at the piano, led the  
class in singing several college  
songs and also the new class  
songs, written for the occasion by  
Mrs. Scott. Franklin Scott, of  
the junior class, gave two read-  
ings. One of the most delightful  
parts of the evening program was  
a series of songs of Mrs. A. R.  
Gregory, director of the choir  
and soloist for the Congrega-  
tional church. Harry C. Locke, pres-  
ident of the class, gave a much  
appreciated address to the class.

dence of enjoying its first party  
and it looks forward with con-  
fidence and enthusiasm.

The following is the class song  
mentioned above:

Old Illinois, We Come!  
Class of 1924.

I.  
Old Illinois we come to thee,  
We the Class of Twenty-four.  
The finest class thou e'er did'st  
see.

Twenty-four, great Twenty-  
four!

We come to thee in numbers  
strong.

A hundred voices raise our song,  
Shout "Illinois" both loud and  
long.

Illinois and Twenty-four!

II.  
Our maidens come to thee most  
fair.

Lovely girls of Twenty-four!  
In charm and grace none may  
compare.

With our girls of Twenty-four!  
Young manhood's strength to  
thee we bring.

Our athletes praise all shall  
sing.

On track and field our name shall  
ring.

Strong and sturdy Twenty-  
four!

III.  
With lofty aims and dreams of  
youth.

Comes the class of Twenty-  
four

To Illinois which stands for truth  
Happy class of Twenty-four!

We come full keen in learning's  
quest.

In class and study do our best.  
Training to serve at life's behest.

Brave and earnest Twenty-  
four!

IV.  
We come to thee with love sin-  
cere.

Twenty-four to Illinois!  
We hail thee Alma Mater dear,  
Illinois, old Illinois!

We love thee for historic halls,  
For great names graven on thy  
walls.

May we like them heed highest  
calls.

Loyal to old Illinois!

### TWO INTERESTING JOURNEYS

Daniel Bahan remarked yester-  
day that he had seen Indianapolis  
when it was but a provincial town  
with wooden walls and plenty of  
stumps all over the ground now  
occupied by that beautiful place.  
His father moved the family  
from Philadelphia in 1851 mak-  
ing the trip partly by rail and  
partly by canal. They little  
thought what a future was in  
store for the capital of Hoosier  
dom nor did any one else.

A few years later Mr. Bahan  
journeyed from Montana to  
Omaha with mule teams and  
found what is now the metropolis  
of Nebraska but an insignificant  
place with few attractions of  
any kind. Chicago was also  
visited and seemed much down in  
the mud, but has since been  
taken. On the same trip he  
visited Salt Lake City which he  
found in a flourishing condition  
as the Mormons had made it  
blossom with all the rest of that  
barren.

We have sweaters from  
\$2.00 to \$18.00.

ence E. Earl, vice president of

Beginning tomorrow fewer than  
2,000 will be at work, it was said.

### Dean and Mrs. Scott

Entertain I. C. Freshman Class.

The Freshman class of Illinois  
College was entertained last  
night at the home of Dean and  
Mrs. Scott, 830 Grove street. The  
class now numbers one hundred  
eleven, including a few specials  
and nearly every member was on  
hand for the first social gather-  
ing of the class. The occasion  
was intended especially to help  
the Freshmen to get acquainted  
with each other and after a  
thorough general mixing there was  
a contest to see who could write  
the most names of class mates,  
not living in his home city. The  
prize, a beautiful Illinois College  
pennant went to Russell Arundel  
of Bluffs. Miss Bradley, with  
Miss Spink at the piano, led the  
class in singing several college  
songs and also the new class  
song, written for the occasion by  
Mrs. Scott. Franklin Scott, of  
the junior class, gave two read-  
ings. One of the most delightful  
parts of the evening program was  
a series of songs of Mrs. A. R.  
Gregory, director of the choir  
and soloist for the Congrega-  
tional church. Harry C. Locke, pres-  
ident of the class, gave a much

## Daily Market Report

ADVANCED DISCOUNTS ON LIBERTY BONDS GRAIN PRICES SHOW INCREASE

NEW YORK, Sept. 29.—Extension of the recent readjustment in the various commodity and merchandise markets was primarily responsible for the further irregular depreciation of quoted values on the stock exchange today.

One of the significant developments of the session as affecting the general credit situation was the news that the federal reserve bank of Kansas City had advanced discounts on liberty bonds and victory notes from 5% to 6 per cent.

Local bankers were of the opinion that institutions at other reserve centers may deem it necessary to resort to similar measures as a partial safeguard against the undue expansion of loans. Announcement of additional price revision to automobile manufacturers, a sharp cut in plates and suspension of operations at three of the mines at Anaconda Copper company in Montana testified to the unsettled conditions in many lines of raw and fabricated materials.

Speculative rails and local traction were strong features of the bond market, liberty issues showing mixed changes with no especial alteration of international prices. Total sales (par value) aggregated \$15,775,000.

Improved cash demand helped to rally provisions from a setback due to lower quotations on hogs.

**ADVANCED DISCOUNTS ON LIBERTY BONDS**  
NEW YORK, Sept. 29.—Extension of the recent readjustment in the various commodity and merchandise markets was primarily responsible for the further irregular depreciation of quoted values on the stock exchange today.  
One of the significant developments of the session as affecting the general credit situation was the news that the federal reserve bank of Kansas City had advanced discounts on liberty bonds and victory notes from 5 1/2 to 6 per cent.  
Local bankers were of the opinion that institutions at other reserve centers may deem it necessary to resort to similar measures as a partial safeguard against the undue expansion of loans. Announcement of additional price revision to automobile manufacturers, a sharp cut in plates and suspension of operations at three of the mines at Anaconda Copper company in Montana testified to the unsettled conditions in many lines of raw and fabricated materials.  
Speculative rails and local traction were strong features of the bond market, liberty issues showing mixed changes with no especial alteration of international prices. Total sales (par value) aggregated \$15,775,000.

## NEW YORK PUT OUT OF PENNANT RACE

By Defeating St. Louis Cleveland Now Leads the White Sox by One and One Half Game—Today's Victory Eliminated the Yankees.

NEW YORK, Sept. 29.—By defeating St. Louis today Cleveland went another half game ahead of Chicago in the final dash for the American League pennant. The White Sox were idle and as a result now trail the Indians by one

and one half games. Altho New York completed its schedule with a double victory over the Athletics the Yankees were formally and finally put out of the race so far as the pennant is concerned by Cleveland's victory. The latter has four games to play and if the team loses all of them the Indians still would be one game ahead of the Yankees.

To settle the race between Cleveland and Chicago, the former, to win must take three of the remaining games on its schedule. If Cleveland should do better than break even and the White Sox should win three games each would finish the season with 93 won and 65 lost.

While the Yankees were eliminated today as pennant contenders there is still a mathematical possibility of the team tying the White Sox for second place but in order to bring this about the White Sox would have to lose their remaining three games.

tation from his source. While at Waverly on Friday, the county agent saw E. D. Dillon, the energetic teacher of agriculture, in Waverly's township high school, north of Waverly, with his students examining eggs of the Hessian fly on volunteer wheat. We are glad to see those in educational work, working along the same line that we are. We ask everyone to heed the warning at this time of the danger in volunteer wheat.

## Price Cutting.

There seems to be a wave of price cutting sweeping over the U. S. Farm products have been first hit and hit the hardest. This cutting of price was done by a bunch of gentlemen gamblers, who go under the name of the Board of Trade. We cannot say just what effect this turn of the wheel will have on farm values, but it can hardly be expected to increase values or production. In the case of manufactured articles, we do not know whether the cutting is due to the fact that manufacturers are conscience smitten, or whether they are trying to work off something that has been a rather slow seller. At some time in the near future we hope to hear of a decent cut in clothes, meat, lumber and in the drugs that we must have to take care of our sick. So far we have not seen any evidence in these lines of the dealers lowering prices.

## Poultry Culling.

The county agent will give a poultry culling demonstration at William Scriber's farm north of Waverly at 9:30 a. m. Tuesday. A regular farm flock will be culled just as it should be done once a year. An invitation is extended to interested parties not only to see this demonstration but to take part in the work if they care to help catch the chickens. This is the first of a series of these demonstrations intended to cover the entire county.

## Meeting of Executive Committee

and Agricultural Council. Saturday, October 2, is the date of the regular meeting of the executive committee. The township representatives are invited to meet with them. C. R. Gideon of Franklin and V. Vaniman assistant state leader of county agents have been asked to be present and to briefly the working of local county livestock shipping in which has been working nearly a year and Mr. Vaniman is familiar with the wide organizations of several counties.

## Livestock Exchange.

The I. A. A. has just arranged a livestock exchange. Provision is made for buying and selling both feeding and breeding stock thru this medium. Such a service is of especial value to small breeders who have more difficulty in disposing of their surplus stock to advantage. This exchange is not operated for profit, but small fees are charged for the service in order to make it self supporting.

## Poland China Meeting.

L. A. Reed and H. E. Kitcher are inviting the Poland China breeders of the county to a conference in the farm bureau office at 7:30 p. m. Monday evening. If enough breeders report at this meeting with livestock sufficient for a sale, a consignment sale for Poland China breeders only, will be arranged for October 13. This invitation is intended primarily for those breeders who do not have enough stock for an individual sale.

## SEN. HARDING'S RECORD ON THE LIQUOR QUESTION

Senator Hitchcock, in Nebraska, Monday told Gov. Cox the German vote is irretrievably lost to the Democrats. He is reported as saying "We might as well be frank about it. The question is, can we win enough women and church votes from the Republican ranks on the league of nations issue to offset the loss?"

There is one issue more vital to the women's and church people's hearts than the league of nations and that is a dry United States. The women will ask first "Is a candidate dry?" They distrust the men who nominated Cox at San Francisco.

As to the wet—"They kept us out of suffrage" every well-read woman knows, and every intelligent woman will well consider before she votes to intrust the nation to the choice of the wet organizations.

Gov. Cox says "The wet and dry question is dead as slavery"—but the Tribune a day or two before election printed the list of legislative and congressional candidates endorsed by the liquor interests.

Hitchcock will have to look elsewhere for salvation for the Democratic party than to "women and church votes."

As to Harding, Nic Duttle, for many years secretary of the Ohio Liquor League writes to the "National Beverage Journal." "The Hon. Harding's record in Ohio has always been dry While he was in the State Legislature he voted for every dry measure that came before the General Assembly. When he ran for governor we made a strong organized fight against him and our candidate, Judson Harmon, defeated him by a big majority. At one of our national conferences held in Washington during the time the question of making the city of Washington dry, the Ohio delegates called on Senator Harding and he told us very plainly that if he had it in his power he would make the entire nation dry by one stroke of his pen, but so long as his constituency in Ohio did not vote for prohibition, he naturally would have to vote against making the City of Washington dry. It did not take him long to get into the bandwagon after Ohio voted dry."

This evidence of an enemy is certainly worthy of credence. Lillian I. Danskin.

Don't let your sweaters shrink or stretch

YOU can wash your sweaters yourself, so that they look like new! The expensive sweater with angora collar and cuffs! The dear little sleeveless slip-on that you knit yourself! Keep them fluffy and new-looking. Wash them in soft Lux suds.

Rubbing soap on woollens and twisting them make them thicken and shrink. Your good-looking sweater suddenly grows far too large and stringy—or ridiculously tight and harsh! But there is no rubbing with Lux. Soak the rich foamy lather gently through and through. Your sweater comes out soft and shapely—the way you bought it.

Your grocer, druggist or department store has Lux.—Lever Brothers Co., Cambridge, Mass.

tation from this source. While at Waverly on Friday, the county agent saw E. D. Dillon, the energetic teacher of agriculture, in Waverly's township high school, north of Waverly, with his students examining eggs of the Hessian fly on volunteer wheat. We are glad to see those in educational work, working along the same line that we are. We ask everyone to heed the warning at this time of the danger in volunteer wheat.

**Price Cutting.**  
There seems to be a wave of price cutting sweeping over the U. S. Farm products have been first hit and hit the hardest. The cutting of price was done by a bunch of gentleman gamblers, who go under the name of the Board of Trade. We cannot say just what effect this turn of the wheel will have on farm values, but it can hardly be expected to increase values or production. In the case of manufactured articles, we do not know whether the cutting is due to the fact that manufacturers are conscience smitten, or whether they are trying to work off something that has been a rather slow seller. At sometime in the near future we hope to hear of a decent cut in clothes, meat, lumber and in the drugs that we must have to take care of our sick. So far we have not seen any evidence in these lines of the dealers lowering prices.

**Poultry Culling.**  
The county agent will give a poultry culling demonstration at William Sreiber's farm north of Waverly at 9:30 a. m. Tuesday. A regular farm flock will be culled just as it should be done once a year. An invitation is extended to interested parties not only to see this demonstration but to take part in the work if they care to help catch the chickens. This is the first of a series of these demonstrations intended to cover the entire county.

**Meeting of Executive Committee and Agricultural Council.**  
Saturday, October 2, is the date of the regular meeting of the executive committee. The township representatives are invited to meet with them. C. R. Gideon of Franklin and V. Vaniman assistant state leader of county agents have been asked to be present and to briefly the working of local county livestock shipping in which has been working nearly a year and Mr. Vaniman is familiar with the wide organizations of several counties.

**Livestock Exchange.**  
The I. A. A. has just arranged a livestock exchange. Provision is made for buying and selling both feeding and breeding stock thru this medium. Such a service is of especial value to small breeders who have more difficulty in disposing of their surplus stock to advantage. This exchange is not operated for profit, but small fees are charged for the service in order to make it self supporting.

**Poland China Meeting.**  
L. A. Reed and H. E. Ktner are inviting the Poland China breeders of the county to a conference in the farm bureau office at 7:30 p. m. Monday evening. If enough breeders report at this meeting with livestock sufficient for a sale, a consignment sale for Poland China breeders only, will be arranged for October 13. This invitation is intended primarily for those breeders who do not have enough stock for an individual sale.

**SEN. HARDING'S RECORD ON THE LIQUOR QUESTION**  
Editor Journal:

Senator Hitchcock, in Nebraska, Monday told Gov. Cox the German vote is irretrievably lost to the Democrats. He is reported as saying "We might as well be frank about it. The question is, can we win enough women and church votes from the Republican ranks on the league of nations issue to offset the loss?"

There is one issue more vital to the women's and church people's hearts than the league of nations and that is a dry United States. The women will ask first "Is a candidate dry?" They distrust the men who nominated Cox at San Francisco.

As to the wet—"They kept us out of suffrage" every well-read woman knows, and every intelligent woman will well consider before she votes to intrust the nation to the choice of the wet organizations.

Gov. Cox says "The wet and dry question is dead as slavery"—but the Tribune a day or two before election printed the list of legislative and congressional candidates endorsed by the liquor interests.

Hitchcock will have to look elsewhere for salvation for the Democratic party than to "women and church votes."

As to Harding, Nic Dutle, for many years secretary of the Ohio Liquor League writes to the "National Beverage Journal." "The Hon. Harding's record in Ohio has always been dry While he was in the State Legislature he voted for every dry measure that came before the General Assembly. When he ran for Governor we made a strong organized fight against him and our candidate, Judson Harmon, defeated him by a big majority. At one of our national conferences held in Washington during the time the question of making the city of Washington dry, the Ohio delegates cabled on Senator Harding and he told us very plainly that if he had it in his power he would make the entire nation dry by one stroke of his pen, but so long as his constituency in Ohio did not vote for prohibition, he naturally would have to vote against making the City of Washington dry. It did not take him long to get into the band wagon after Ohio voted dry."

This evidence of an enemy is certainly worthy of credence.

Don't let your sweaters shrink or stretch

YOU can wash your sweaters yourself, so that they look like new! The expensive sweater with angora collar and cuffs! The dear little sleeveless slip-on that you knit yourself! Keep them fluffy and new-looking. Wash them in soft Lux suds.

Rubbing soap on woollens and twisting them make them thicken and shrink. Your good-looking sweater suddenly grows far too large and stringy—or ridiculously tight and harsh! But there is no rubbing with Lux. Souse the rich foamy lather gently through and through. Your sweater comes out soft and shapely—the way you bought it.

## Milk—you can trust for purity!

EVERY housewife would enjoy seeing one of the model condenseries where Libby's Evaporated Milk is packed. She would admire the great copper kettles, the sparkling glass receptacles, the polished metal tubes—all so spotless and clean.

But even more she would be impressed by the care—the painstaking, never-ending care—taken to insure the purity of this famous milk!

The Libby condenseries are located in the heart of farming districts that have become world-famous for their milk and cream. From start to finish Libby's Milk is guarded. It is brought to the condensery in clean, tightly closed

cans. And when the cans are emptied, they are not the farmer until they are thoroughly scalded, less clean cans for day.

This is only one of many safeguards used to insure the purity of Libby's Milk. Each can has been put in the cans is sterilized by being high temperature. It keeps sweet indefinitely.

Nothing is a matter of concern to the health of the community than the supply of milk. Ask your Libby's Evaporated milk that can be
